

NOISE PROTECTION STUDY, HIGHWAY A9

AUSTRIA

In order to determine suitable noise protection measures, a general and detailed noise protection study was conducted in the northern area of the tunnel "Wald am Schobernpass" on the Pyhrnautobahn A9 at Kalwang/Treglwang.

This noise protection study and the following detailed project were the basis of the tender documents for the noise protection walls and the evaluation of the offers.

Client:
ASFINAG
Investigation area:
Vorwald/Nordportal, Tunnel, Wald
approx. length:
2,7 km
Investigation period:
July 2002 - September 2003
