

FLUE GAS DESULPHURISATION PLANT, TOCOPILLA CHILE

Andritz has received an order from the Chilean power generation company AES Gener S.A. for the turnkey supply of a flue gas desulphurisation plant incl. bag filter for the coal fired power plant Tocopilla (2 x 140 MW).

On behalf of Andritz, convex ZT GmbH is carrying out the construction permit and civil design works. The plant in Tocopilla is founded on rock, the high tension loads due to seismic loads have to be resisted by rock anchors.

Owner:

AES Gener S.A., Chile

General contractor:

Andritz Energy and Environment GmbH, Austria

Overall costs:

€ 40 Mio.

Construction costs:

€ 4 Mio.

Completion:

2014
