

OPERATIONS BUILDING, RAINBACH

AUSTRIA

Gas Connect Austria GmbH (GCA) is erecting a new operations building at the Rainbach compressor station site.

On behalf of GCA convex ZT GmbH is responsible as general designer for the design, the tender, the permit and execution design and partly for the construction supervision. The domestic services and small power and lighting design is carried out by AOP GmbH on behalf of convex ZT GmbH. The operations building includes the change rooms, offices and meeting rooms. The partially three-storey building is constructed in reinforced concrete.
