

NOISE PROTECTION STUDY, HIGHWAY A9

AUSTRIA

In order to determine suitable noise protection measures, a general and detailed noise protection study was conducted in the northern area of the tunnel "Wald am Schoberpass" on the Pyhrnautobahn A9 at Kalwang/Treglwang.

This noise protection study and the following detailed project were the basis of the tender documents for the noise protection walls and the evaluation of the offers.

Client:

ASFINAG

Investigation area:

Vorwald/Nordportal, Tunnel, Wald

approx. length:

2,7 km

Investigation period:

July 2002 - September 2003
