

PRODUCTION HALL, PFULLENDORF GERMANY

Kramer Werke GmbH, affiliate company of Wacker Construction Equipment AG, which is the leading manufacturer of all-wheel loaders and telehandlers for the construction industry in Germany, is erecting a new production line with 30.000 m² on a land with expansion potential of 160.000 m² in Pfullendorf, Germany.

The total design was carried out by L-Bau-Engineering GmbH, the structural engineering was done by Zorn & Nowy ZT GmbH (www.nowyzorn.at). On behalf of Zorn & Nowy ZT GmbH, convex ZT GmbH was responsible for the design of the pre-fabricated concrete elements of the production hall and formwork- and reinforcement drawings of parts of the office- and exhibition building.
