

FACTORY BUILDINGS SIEMENS, GRAZ

AUSTRIA

Graz is the world competence center for undercarriages by Siemens Mobility. One of the biggest factories for hightech-undercarriages, developing, producing and distributing them worldwide is currently situated at the location Graz Eggenberg. Parts of these factory buildings will be renewed and extended by a new production hall.

On behalf of SIEMENS AG Austria, convex ZT GmbH was appointed as general designer incl. site supervision of the civil works. The construction permit could be received in shortest time thanks to the perfect collaboration of all involved parties. The fact that the factory is continuing operation during the construction works required particular attention to detail of all parties.

Client:
SIEMENS AG, Austria
General designer:
convex ZT GmbH, Austria
Overall costs:
€ 5 mill.
Completion:
January 2011
