

WORKSHOP BUILDING, BAUMGARTEN

AUSTRIA

Gas Connect Austria GmbH (GCA) is building two Workshop Buildings (a mechanics workshop and a electricians workshop) at the Gasstation Baumgarten, Austria.

On behalf of GCA, convex ZT GmbH is acting as general designer, being responsible for the basic-, permit- and execution design and site supervision. In order to fulfill the very tight construction schedule, the buildings were carried out in prefabricated concrete. The structural works are completed in time by end of 2014.

Owner:

Gas Connect Austria GmbH

General designer:

convex ZT GmbH

Basic data:

820 m² resp. 300 m²

Construction costs:
