CCPP RAMAT GAVRIEL

ISRAEL

On behalf of the Israeli power utility RD Energy, SIEMENS is building a turnkey industrial gas and steam turbine power plant in northern Israel. The Ramat Gavriel power plant with an electrical output of 70 MW will supply a fiber factory with electricity and process steam. The plant will be commissioned in mid-2018.

On behalf of and at SIEMENS Austria, convex ZT GmbH performs project management tasks and the construction works detail design. As local partner, Ron Meshulami Engineers Ltd. from Tel Aviv is assisting convex ZT GmbH with regard to Israeli standards and regulations.

Client:
SIEMENS Österreich GmbH
General contractor:
SIEMENS, Austria
Capacity (electrical):
70 MW
Start of construction:
October 2016
Operation:
Summer 2018
