SCR-PLANT CURRENTA LEVERKUSEN

GERMANY

International technology group ANDRITZ AG has received an order from Currenta GmbH & Co. OHG to deliver a SCR DeNOx plant (SCR: Selective Catalytic Reduction) for the hazardous waste incineration plant in Bürrig at its CHEMPARK site in Leverkusen, Germany.

On behalf of ANDRITZ AG, convex ZT GmbH was responsible for the permit, basic and detail design of the construction work. Due to soil conditions, some of the structures had to be deep-founded with in-situ concrete piles. This circumstance required special caution with regard to existing and operating pipelines of all kinds.

Owner:
Currenta GmbH & Co. OHG
General contractor:
Andritz AG
Construction costs:
€ 1 Mio
Operation:
2018
