

CCPP SUGAT

ISRAEL

On behalf of the Israeli power utility Alon Energy Centers, SIEMENS is building a turnkey industrial gas and steam turbine power plant in northern Israel. The Sugat power plant with an electrical output of 100 MW will supply a sugar factory with electricity and process steam. The plant will be commissioned in mid-2019.

On behalf of and at SIEMENS Austria, convex ZT GmbH performs project management tasks and construction works detail design. As a local partner, Ron Meshulami Engineers Ltd. from Tel Aviv is assisting convex ZT GmbH with regard to Israeli standards and regulations.

Client:
